### Introduction and Subject Aims

Welcome to Bankruptcy. Bankruptcy is an increasingly important field of law, at the personal and corporate level. From an ex ante perspective, lawyers must design contracts with bankruptcy rights in mind to protect the (future) interests of their clients. From an ex post perspective, bankruptcy lawyers must work within the bounds of the code to extract the maximum recovery for creditors of debtors in bankruptcy.

This subject will introduce students to the basics of the bankruptcy code, as well as many of the more nuanced aspects of bankruptcy. We will cover the rights of creditors and debtors related to bankruptcy filings, the definition and importance of claims, and the implications of secured vs. unsecured claims. We will also discuss the policy that motivates bankruptcy and the code's various provisions.

## Assessment

---

### Assessment Overview

Assessment Task	Due Date	Weighting
Final Exam	TBD	100%*

\*Note that the final grade can incorporate any exemplary/dissatisfactory class participation.

### Exam Policy

The exam can cover **anything** in the **assigned** readings or in materials covered in lectures. While the focus is generally on materials discussed in class, students are expected to read all assigned materials in preparation for the exam (not to mention class!).

Students may use a copy of the statutory supplement (or equivalent) on the final exam, including any personal annotations. Extra papers, texts, or other materials are not permitted.

Students must be available for the entire examination period. Supplementary/make-up exams will not be provided in cases of absence during the examination period, unless the absence is due to major illness or other serious circumstances. Special circumstances and conflicting schedules are handled by the Law Records Office, **NOT** the instructor. I encourage students to read the complete exam policy here.

### Plagiarism and Collusion

Presenting material from other sources without full acknowledgement (referred to as plagiarism) is heavily penalised. Penalties for plagiarism can include a mark of zero for the piece of assessment or a fail grade for the subject.

Plagiarism is the presentation by a student of an assignment or exam identified as his or her own work even though it has been copied in whole or in part from another student's work, or from any other source (e.g. published books, web-based materials, or periodicals), without due acknowledgement in the text.

Collusion is the presentation by a student of an assignment or exam as his or her own work when it is, in fact, the result (in whole or in part) of unauthorised collaboration with another person. Both the student presenting the assignment and the student(s) willingly supplying unauthorised material are considered participants in academic misconduct.

### Special Consideration and Disabilities

If there are unexpected or unique circumstances that a student faces, please contact the Director of Student Academic Affairs (Christine Malone). In spite of any serious family or health concerns, students are required to miss no more than 20% of the lectures. Students with disabilities or chronic medical conditions who are seeking in-class and/or exam accommodations should contact the Office of Disability Services (ODS, [ods.gmu.edu](https://ods.gmu.edu)). This is the only office that can make a determination as to whether accommodations are required. The law school and instructors work with ODS to implement any approved accommodations.
